INTRODUCTION TO THE PUBLIC ACCOUNTS OF MANITOBA

The Public Accounts of the Province of Manitoba are prepared by statutory requirement, in accordance with the Financial Administration Act, which is Chapter F55 of the Continuing Consolidation of the Statutes of Manitoba. The Public Accounts for the fiscal year ended March 31, 1990 consists of three volumes:

VOLUME 1 contains the Financial Statements of the Consolidated Fund of the Province and schedules of supporting information.

VOLUME 2 is a supplementary volume which contains further details of the expenditures by standard expenditure object codes. It also provides details of the salaries and wages paid to employees as well as payments to corporations, firms, individuals, other Governments and Government Agencies.

VOLUME 3 contains the Summary Financial Statements of the Province. The intent of these statements is that they will reflect the consolidation of the financial operations of all organizations integral to the overall operations of Government in performing its executive function. At this time however, only the operations of certain trust accounts and crown entities, as referenced in the Introduction to Volume 3, are consolidated with those of the Operating Fund.

While the resulting consolidations represents the Reporting Entity in all material respects, there remains several operations with a lesser dollar impact which have yet to be consolidated. The Department of Finance is working to include the financial operations of these organizations in future Summary Financial Statements.

REPORT OF THE OFFICE OF THE PROVINCIAL AUDITOR

To The Members of the Legislative Assembly of Manitoba:

Under the authority of section 14 of the Provincial Auditor's Act, we have examined the Operating Fund statements of financial position and excess of liabilities over financial assets of the Consolidated Fund of the Government of the Province of Manitoba as at March 31, 1990 and the Operating Fund statements of revenue and expenditure, changes in financial position, and those Operating Fund statements provided under statutory requirement for the year then ended. We have also examined the Trust Fund statements of assets and liabilities, cash and investments and balances, of the Consolidated Fund of the Government of the Province of Manitoba as at March 31, 1990. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, except for the matter presented as reservation 1 regarding amounts receivable, these financial statements present information in accordance with the accounting policies of the Government of the Province of Manitoba stated in notes 1 to the Operating Fund and Trust Fund financial statements of the Consolidated Fund applied on a basis consistent with that of the preceding year. We also report two additional reservations regarding the Government's accounting treatment of pension liabilities and associated pension costs and transactions with the Fiscal Stabilization Fund. In our opinion, except for the effects of these three reservations as set out below, these financial statements present fairly the financial position of the Consolidated Fund of the Government of the Province of Manitoba as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended.

Reservation 1 - Recording of a Pending Amount Receivable from the Government of Canada

Recorded in the Operating Fund financial statements is $18.7 million in emergency disaster amounts receivable from the Government of Canada regarding a pending claim for fire suppression costs. The Governments of the Province of Manitoba and Canada are in the process of negotiating a cost sharing arrangement to cover these costs. As at March 31, 1990, the Government had not finalized cost sharing arrangements for these costs, the Province had not submitted a formal claim to Canada and Canada had not acknowledged this liability. As a result, realization of this amount receivable depends on future negotiations. As at March 31, 1990, the classification of the $18.7 million as an amount receivable cannot be verified. Had the Government not recorded the $18.7 million as an amount receivable in its financial statements, revenue would be decreased and the annual deficit would be increased by $18.7 million for the year ended March 31, 1990. Also, financial assets would be decreased and the total excess of liabilities over financial assets and similar items (accumulated deficit) would be increased by $18.7 million as at March 31, 1990.

Reservation 2 - Failure to Record Pension Liabilities and Associated Pension Costs

In accordance with the accounting policy stated in note 1B2d to the Operating Fund financial statements, the Government does not record its pension liabilities and the costs associated with the annual increase in the pension liabilities for pension entitlements earned by its employees, teachers and Members of the Legislative Assembly in its financial statements. Note 13 provides information on the Government's estimated unfunded pension liabilities. The unfunded pension liabilities are estimated to be $1,157 million as at March 31, 1990. Had the Government recorded the unfunded pension liabilities and the costs associated with the annual increase in the pension liabilities in its financial statements, expenditure and the annual deficit would be increased by an estimated $131 million for the year ended March 31, 1990. Also, liabilities and the accumulated deficit would be increased by an estimated $1,157 million as at March 31, 1990.

Reservation 3 - Transactions with the Fiscal Stabilization Fund

In accordance with the accounting policy stated in note 1A to the Operating Fund financial statements, the Government records in the Operating Fund the operational activities of the Government and reports amounts recorded as Government revenue, expenditure on Government programs, the lending and investment of Government funds and the borrowing and repayment of debt.

The Fiscal Stabilization Fund includes operating revenues that have been transferred from the Operating Fund. Segregation of the Fiscal Stabilization Fund from the Operating Fund results in the incomplete presentation of the Operating Fund financial statements.

For the year ended March 31, 1989, we reported our concern with the transfer of $200 million of Operating Fund revenues to the Fiscal Stabilization Fund. Our concern continues as this transfer results in the overstatement by $200 million of the Government's liabilities and the accumulated deficit as at March 31, 1990.

For the year ended March 31, 1990, the Fiscal Stabilization Fund recorded $25 million of interest earned on the $200 million of Operating Fund revenues transferred in 1989. This interest should be combined with the Operating Fund. Had the Government combined this interest with the Operating Fund, expenditure and the annual deficit would be decreased by $25 million for the year ended March 31, 1990. Also, liabilities and the accumulated deficit would be decreased by $25 million as at March 31, 1990.

The combined effect of the three reservations on the Government's 1990 operations is a decrease in revenue of $18.7 million, an increase in expenditures of $106 million and an increase in the annual deficit of $124.7 million for the year ended March 31, 1990. Also, financial assets would be decreased by $18.7 million, liabilities would be increased by $932 million and the accumulated deficit would be increased by $950.7 million as at March 31, 1990.

GOVERNMENT OF THE PROVINCE OF MANITOBA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1990

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic accounting policies followed by the Government of the Province of Manitoba, which have been applied in the preparation of the Operating Fund Financial Statements are summarized below. These policies have been developed and are applied in accord with the provisions of the Financial Administration Act, which is Chapter F55 of The Continuing Consolidation of The Statutes of Manitoba.

A. THE REPORTING ENTITY

The financial transactions of the Government are recorded in the "Consolidated Fund". The activities of the Consolidated Fund are divided into the "Operating Fund", which records the operational activities of the Government, and the "Trust Fund", which records the trust administration function.

Financial statements prepared for the "Operating Fund" report amounts recorded as Government revenue, expenditure on Government programs, the lending and investment of Government funds and the borrowing and repayment of debt. Separate financial statements are prepared for the "Trust Fund" which report the activities in the various categories of trust money administered by the Government.

The financial operations of provincial Crown corporations, agencies, boards and commissions are not consolidated in these financial statements and are reflected in the Operating Fund financial statements only to the extent that:

1. they receive money from or pay money to the Government, or
2. any non-recoverable deficits they incur are adjusted against the amounts loaned, advanced or invested in them by the Government, or
3. where the Government has no loans, advances or investments involved, any losses they incur, which are assumed by the Government, are recorded as accrued charges.

B. BASIS OF ACCOUNTING FOR REVENUE AND EXPENDITURE

1. GROSS ACCOUNTING CONCEPT

Revenues and expenditures are recorded in gross amounts with the following exceptions:

a) The municipal share of Individual and Corporation Income Taxes, which is paid to Municipalities in accordance with the Provincial-Municipal Tax Sharing Act, is not recorded as revenue or expenditure by the Government.
b) Refunds of revenue are treated as reductions of current year revenue.
c) Decreases in valuation allowances previously provided are treated as reductions to expenditure.
d) Recoveries from Crown corporations and government agencies of the debt servicing costs on self-supporting debt are recorded as a reduction of Public Debt expenditure. The same treatment is also given to income earned on investments and advances.
e) Transfers to and from the Fiscal Stabilization Fund, under the provisions of the Fiscal Stabilization Fund Act, are applied directly against revenue.

2. MODIFIED ACCRUAL ACCOUNTING

The revenues and expenditures of the Government are recorded on an accrual basis with exceptions noted as follows:

a) INCOME FROM CANADA-MANITOBA FISCAL ARRANGEMENTS - This income is recorded on a cash basis with three exceptions:
   i) revenues received in advance of when they are earned are deferred to the appropriate fiscal year;

ii) money received in advance, relating to projects for which expenditures are to be made in more than one fiscal year, is deemed to be revenue in each fiscal year in proportion to the related expenditure made in the respective fiscal year; and

iii) the accounts are kept open until June 30 to reflect any adjustments regarding revenue from the Government of Canada under the Canada-Manitoba Fiscal Arrangements.

b) FEES AND OTHER REVENUE - Collections are recorded on a cash basis except for amounts received in April from Agents for provincially collected taxes pertaining to the year just ended which are recorded as revenue receivable.

c) SALARIES AND WAGES - Salaries and wages are recorded as expenditures in the year in which they are paid. No liability or expenditure is recorded for salaries earned but not paid at year end, or for salary related benefits such as vacation earnings.

d) PENSION - The annual cost recorded by the Government is its share of pensions paid to retired employees, teachers and Members of the Legislative Assembly.

The Government does not record its liability for the annual cost of pension benefits earned by employees, teachers and Members of the Legislative Assembly.

e) GOODS AND SERVICES - A period of forty-five days after the end of the fiscal year is allowed for the payment of operating expenditures incurred during that fiscal year. Payments in this period are reflected as accounts payable for the fiscal year just ended. Supplier accounts not paid within this period are treated as expenditures of the following year.

However, recording of expenditures is allowed after the forty-five day period if required to show the accurate financial condition of the Government, pursuant to authority provided under Section 8 of the Financial Administration Act. In this regard, any entries made after June 30 must be disclosed in the Public Accounts.

f) CAPITAL ASSETS AND INVENTORIES - Expenditures for the acquisition and/or construction of fixed assets and the acquisition of inventories are not considered to differ from any other service to the public and accordingly are treated as expenditures on the same basis as Goods and Services.

C. ASSETS AND LIABILITIES

1. Except for deferred revenue, the assets and liabilities reported in the financial statements are financial claims. The assets are claims by the Government on other parties and the liabilities are claims by other parties on the Government.

   Deferred revenue consists of money received from taxation and shared cost agreements which relate to future years, as well as unamortized fees from debt transactions to be amortized over the remaining life of the debt. This deferred revenue will be recorded in the appropriate year.

2. Capital assets and inventories do not represent financial claims on others. Therefore they are not reported as assets at fiscal year-end.

3. Loans, advances and long-term investments held by the Government are subject to annual valuation.

   The principal repayments and/or interest charges for some of the advances are dependent on total or partial funding from future appropriations of the Consolidated Fund. The major agencies to which this applies are the Manitoba Housing and Renewal Corporation, for most of the principal and interest funding, and The Manitoba Agricultural Credit Corporation, for partial interest funding.

A valuation allowance is provided to reflect decreases in the value of loans, advances and long-term investments and is adjusted annually for changes that have occurred in the estimated realizable value of these assets. Increases in the valuation allowance are recorded as expenditures, and conversely decreases in the valuation allowance are treated as a reduction of expenditures.

Loans, advances or long-term investments may be written-down in the accounts of the Government, pursuant to authority provided under the Financial Administration Act. The write-down is applied to the valuation allowance, whether it occurs in the year the valuation allowance is provided or in a subsequent year. Where an investment has been partially written-down to reflect a permanent decline in its realizable value, it is carried at its decreased value. Otherwise, it is recorded at cost.

4. Investments included in Cash and Equivalents and the Province of Manitoba Sinking Fund are recorded at cost adjusted for amortization of investment premium or discount. Any premium or discount incurred at the time of purchase is amortized annually to public debt expense over the life of the investment. The investments included in the remaining Sinking Funds are shown at cost and do not reflect any amortization of investment premium or discount.

   Investments denominated in foreign currency are translated to the Canadian dollar equivalent at the exchange rate in effect at March 31, unless the rate of exchange or a forward exchange contract fixing the value has been negotiated, in which case that rate or amount is used.

   Expenses and other transaction charges incurred on the purchase of investments during the year are charged to public debt expense. Those expenses incurred in foreign currency are translated at the exchange rate in effect on the transaction date.

   The year end investment translation adjustments reflecting the foreign exchange fluctuation from the value at the issue date are recorded through the Unamortized Foreign Currency Fluctuation account, and amortized annually to public debt expense over the life of the investment.

5. Borrowings, comprised of bonds, debentures and other long-term debt issued and payable in Canadian currency, are recorded at the par value of the issue. Discounts or premiums, as well as commissions incurred at the time of the issue of the debt, are amortized annually to public debt expense over the life of the debt. The unamortized portion is deducted from the par value of the debt.

   Fees received at the time of arranging debt transactions, in respect of options or warrants, are reflected as deferred revenue and amortized annually as a credit to public debt expense over the life of the debt. The unamoritzed portion is included in deferred revenue.

   Expenses and other transaction charges, such as legal fees, printing and registration, incurred during the year on the issue of debt are charged to public debt expense. Those expenses incurred in foreign currency are translated at the exchange rate in effect on the transaction date.

   Borrowings issued and payable in foreign currencies are recorded at the Canadian dollar equivalent of the par value based on the exchange rate in effect at March 31, unless the rate of exchange or a fixed amount has been negotiated through a currency exchange agreement or other arrangement, in which case that rate or amount is used.

   The year end translation adjustments reflecting the foreign exchange fluctuation from the value at the issue date are recorded through the Unamortized Foreign Currency Fluctuation account, and amortized annually to public debt expense over the life of the debt issue.

Where an issue of debt in a foreign currency is called for redemption prior to maturity and refinanced with another issue of debt, the Canadian dollar equivalent cost of the original debt is translated at the exchange rate in effect at the date of redemption. The resulting unrecognized foreign currency fluctuation is recorded through the Unamortized Foreign Currency Fluctuation account and is amortized to public debt expense over the term of the first replacement issue or the remaining term of the original issue, whichever is less. However, if the remaining term of the original issue is one year or less, the fluctuation is fully expensed in the year of redemption.

On maturity, any unrecognized foreign exchange gain/loss, being the difference between the recorded par value in Canadian currency and the required payment, is reflected in public debt expense.

Proceeds of debt raised for the purpose of retiring a specific debt issued on a later date and which are invested for a short term are valued in accordance with the accounting policy on Borrowings. Holdings of unmatured provincial debt issues purchased on the market for cancellation are valued in accordance with the policy on investments. Both these investment categories are reflected as reductions to Borrowings.

Sinking funds are maintained in accordance with legal requirements of the debt instruments and the Financial Administration Act, and are reflected as a reduction of Borrowings.

D. GUARANTEED AND INDIRECT LIABILITIES

In addition to having direct debt, the Government acts as a guarantor of securities issued by various other entities. The debt issued by Crown corporations, agencies, boards and commissions and guaranteed by the Government is largely self-supporting. Other guaranteed debt for schools, universities and hospitals is serviced in whole or in part from appropriations of the Consolidated Fund.

Legislation requires the maintenance of sinking funds for the retirement of the debt of most Crown corporations, agencies, boards and commissions. These sinking funds are held in Trust by the Minister of Finance. The Crown corporation, agency, board or commission to whom the debt applies, make annual contributions to the sinking fund.

Contingent liabilities that result from other financial activities of the Government are reported in the notes to the financial statements.

2. VALUATION ALLOWANCE

The valuation allowance is determined as follows:

A. CROWN CORPORATIONS, AGENCIES, BOARDS AND COMMISSIONS - LOANS, ADVANCES AND LONG-TERM INVESTMENTS

1. OPERATING DEFICITS

The valuation allowance is based on the financial results applicable to the most recent fiscal year completed prior to April 1. Where an assessment of the accumulated deficit indicates a prospect for recovery from future operations, the amount of the valuation allowance is adjusted accordingly.

2. NON-RECOVERY OF CAPITAL INVESTMENT

A valuation allowance may be provided where there is reasonable evidence that the Province's investment will not be realized.

3. MANITOBA PROPERTIES INC.

Beginning in 1988-89 but not retroactive, the annual valuation allowances in relation to advances to Manitoba Properties Inc. include provision for advances made in relation to capital expenditure as well as operating deficits.

If the Government has more than one type of investment in an organization (eg. common shares, preferred shares and debentures), the valuation allowance is assigned against the investments in order of priority on liquidation.

B. OTHER LONG-TERM INVESTMENTS
The valuation allowance is used to record losses, that are other than temporary declines, in the value of the Government's investments in other than Crown corporations, agencies, boards and commissions. The valuation allowance is based on an annual valuation of the investment.

C. OTHER LOANS AND ADVANCES
The valuation allowance is used to provide for the estimated amounts not recoverable under a Government loan or support program. The valuation allowance for doubtful accounts that has been established for that loan or support program is recorded by means of a valuation allowance placed against the loan or advance used to fund the program. Increases to the valuation allowance are recorded as an expenditure regardless of the timing of the write-off of the uncollectible accounts, such write-off being applied directly to the valuation allowance.

The March 31, 1990 valuation allowance balance of $68 million (1989-$214 million) is after having given effect to the write-down of some loans, advances and long-term investments where it has been determined that the realizable value has been permanently impaired:

	($millions)	
	1990	1989
Manitoba Agricultural Credit Corporation	$ 9	$ 5
Manitoba Beef Stabilization Fund	17	-
Manitoba Housing and Renewal Corporation	4	-
Manitoba Development Corporation	1	-
Insulation Loan Program	-	2
Emergency Interest Rate Relief Program	-	1
Venture Capital Program	1	-
	$ 32	$ 8

3. PROVISION FOR FOREIGN CURRENCY FLUCTUATION ON MANITOBA HYDRO DEBT

The Province issues provincial securities to raise funds for Manitoba Hydro. In addition, the Province guarantees debt which Manitoba Hydro issues in its own name. Until March 31, 1987, pursuant to the Energy Rate Stabilization Act, the Province was responsible for the currency fluctuation on all foreign debt issued for Manitoba Hydro purposes.

The Energy Rate Stabilization Act was amended effective April 1, 1987 making Manitoba Hydro responsible for the fluctuation on all of its foreign currency debt issued on or after that date. Manitoba Hydro was also made responsible for the fluctuation on its U.S. dollar denominated debt issued prior to April 1, 1987, except to the extent already provided by the Province to March 31, 1987.

Effective April 1, 1989 the Act was further amended to transfer responsibility to Manitoba Hydro for the remaining foreign currency risk associated with the debt issued prior to April 1, 1987. At March 31, 1989, using the foreign exchange rates in effect on that date, the Province adjusted its provision account to cover the total fluctuation in the value of this foreign debt.

At maturity of any foreign debt issue for Manitoba Hydro purposes, be it U.S. dollar denominated or other foreign currency, the Province is responsible for the lesser of the currency fluctuation on the maturing debt or the amount remaining in the provision account for that particular issue.

The provision account balance of $266 million at March 31, 1990 (1989-$286 million) represents the limit of the Province's liability for foreign exchange fluctuation on both U.S. dollar denominated debt and other foreign debt for Manitoba Hydro purposes.

4. BORROWINGS

All borrowings are expressed in Canadian dollars and are shown net of sinking funds, unamortized debt issue costs and debt of the Province of Manitoba held as provincial investments. Foreign borrowings are converted at the exchange rate in effect at March 31 adjusted for any foreign currency contract entered into for settlement after the fiscal year-end.

The weighted average rate of interest based on actual interest payments made during 1989-90 was 10.6% (1988-89 10.05%)

Money is allocated annually to the Province of Manitoba sinking funds on the following basis:

A. a sum equal to 3% of the aggregate amount of debt related to general government programs, in Canadian Dollars converted at the date of issue, outstanding at the end of the preceding fiscal year; and
B. all earnings derived from investing the sinking fund.

The Manitoba Hydro-Electric Board and the Manitoba Telephone System make annual contributions to their respective sinking funds for the orderly retirement of their debt based on 1% of debt and Provincial advances outstanding at the preceding fiscal year end plus 4% of the sinking fund balance.

In addition, all principal repayments of advances by other agencies are allocated to the sinking fund and will be utilized to retire other agencies' debt as such debt matures.

5. UNAMORTIZED FOREIGN CURRENCY FLUCTUATION

This balance represents the unamortized portion of unrealized foreign currency gains or losses on the conversion of the assets and liabilities of the Government to Canadian dollars at March 31. It also includes the unamoritzed portion of realized foreign currency gains or losses on the conversion of the foreign currency debt called prior to maturity using the rates in effect at the time of the call.

6. SERIAL DEBENTURES OF SCHOOL DIVISIONS AND DISTRICTS, TRANSFERRED FROM THE MANITOBA SCHOOL CAPITAL FINANCING AUTHORITY

The School Capital Financing Authority Act was repealed April 1, 1983 at which date all investments and money held by the Authority, as well as debt payable by the Authority, was assumed by the Government. The investments transferred to the Government consist of serial debentures issued by school divisions and districts for which the Government is primarily responsible for repayment. These securities are therefore included in this category because they do not represent a claim on other parties.

The estimates of expenditure provide an annual appropriation in the Operating Fund to cover the principal and interest costs of these debentures. The cash drawn from this appropriation for the required annual principal repayments is transferred to the Province's sinking fund where it will be used for repayment at maturity of the debt assumed from the Authority. A similar treatment would be accorded any proceeds from the sale of the school debentures.

7. SECURITIES RECEIVED FROM SALE OF LAND AND BUILDINGS

During 1984-85 and 1985-86 the Government sold land and buildings with an aggregate value of $917 million to Manitoba Properties Inc. (MPI). The sale was arranged through two intermediary Crown corporations, Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc., and resulted in the Government receiving common shares of these two corporations along with promissory notes of MPI and cash as the purchase consideration.

The recorded value of the common shares has been reduced by a special valuation account which was established from a portion of the sale proceeds and is used to reflect the potential diminution in value of these shares as the result of dividends paid to preferred shareholders of Manitoba Properties Inc. on an annual basis. Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. each own 50% of the common shares of Manitoba Properties Inc. and the value of their equity in these shares could decrease annually with the payment of dividends by the latter to preferred shareholders.

Interest payable to the Province on the promissory notes is funded from annual rental payments made by the Government to Manitoba Properties Inc. and is therefore dependent on future appropriations of the Operating Fund. These securities are therefore included under this category because they do not represent a claim on other parties.

8. TRUST FUND

Included in the Statement of Financial Position is an amount owing to the Trust Fund which primarily represents surplus cash of Crown corporations, agencies, boards and commissions, as well as the Fiscal Stabilization Fund, on deposit with the Minister of Finance for investment but not specifically invested. Such deposits are pooled with other available funds of the Government for investment purposes and are accorded a market rate of interest. The assets and liabilities of the Trust Fund itself as at March 31st are as follows:

	($millions)	
ASSETS	1990	1989
Amount due from Operating Fund	$1,044	$1,161
Cash and Investments	794	672
Total Trust Assets	$1,838	$1,833
LIABILITIES		
Trust Fund Balances	$1,838	$1,833
Total Trust Liabilities	$1,838	$1,833

In addition, the Trust Fund includes cash and securities for which the Government's responsibility is custodial in nature. The amount reported at March 31, 1990 was $700 million (1989-$635 million).

9. GUARANTEED AND INDIRECT LIABILITIES

Debt issued by Crown corporations, agencies, boards and commissions which is guaranteed by the Government at March 31st:

	($ millions)	
	1990	1989
Provincial utilities, cities and towns	$1,733	$1,604
Debt of Crown corporations whose main source of income is the Operating Fund	372	399

	$2,115	$2,013
Less: Applicable sinking funds	290	277
	$1,825	$1,736

A portion of the foreign currency fluctuation on the guaranteed debt included above has been provided for in the Provision for Foreign Currency Fluctuation on Manitoba Hydro Debt.

10. OTHER ACCRUED LIABILITIES

The Government has accrued a liability at March 31st for losses or program expenditures in order to recognize the Province's responsibility to fund these amounts when they become payable:

	($ millions) 1990	1989
Manitoba Public Insurance Corporation		
- Reinsurance assumed losses	$ 32	$ 32
Criminal Injuries Compensation Board		
- Unfunded future costs of compensation awards	20	17
Manfor Ltd. Divestiture	10	-
Manitoba Milk Producers Marketing Board	2	2
Other	2	2
	$ 66	$ 53

11. FINANCIAL COMMITMENTS

The Government has entered into long-term financial arrangements wherein indebtedness has been issued that is not guaranteed by the Government, but the funds required for the payment of principal and interest will be either fully or partially provided from appropriations of the Operating Fund. The Government has also made future commitments against appropriations under long-term contracts that cover the acquisition and/or rental of physical assets. These financial commitments as at March 31st are as follows:

	($ millions) 1990	1989
LONG-TERM FINANCIAL ARRANGEMENTS:		
Hospitals and Personal Care Homes	$ 462	$ 429
Public Schools	285	272
Manitoba Housing and Renewal Corporation	225	229
Repap Pulp and Paper Inc. (Divestiture of Manfor Ltd.)	150	-
Brandon University	3	3
Manitoba Water Services Board	2	2
	$ 1,127	$ 935
FUTURE COMMITMENTS:		
Acquisition of physical assets	$ 157	$ 81
Rental of physical assets	60	94
	$1,344	$1,110

In addition to the approved outstanding debt for Hospitals and Personal Care Homes, lines of credit up to $82.6 million (1989-$64.4 million) have been approved to finance capital projects currently in process. On completion of these projects, the borrowings will be converted to long-term debt.

12. CONTINGENCIES

The Government has provided guarantees for the following and accordingly has a contingent liability in the event of default:

	Maximum Guarantee ($ millions)	Amount Outstanding 1990	($millions) 1989
Mortgages	$ 1	$ 1	$ 1
Promissory notes	175	-	3
Bank loans and lines of credit	38	21	22
	$214	$22	$26

This does not include guarantees that may be provided by Crown corporations, agencies, boards and commissions under their own separate authority.

The Government has provided a guarantee to the purchaser of Flyer Industries Ltd. covering all of the obligations of Manitoba Development Corporation arising out of the sale of Flyer Industries Ltd. including $53 million of performance bonds on contracts for the supply of buses to various transit organizations.

The Government has been named in approximately 275 legal actions, outstanding at March 31, 1990, which may result in future liabilities. As well, there are approximately 100 other claims outstanding in respect of damages to persons and property and like items. No provision has been made at March 31, 1990 in the accounts of the Province as the outcome of these actions and claims is uncertain.

13. PENSION LIABILITY

The Government is required by legislation to pay 50% of the pension disbursements made to retired Provincial employees (with the exception of the share payable by Government agencies for their employees) and to retired teachers. Such payments are charged to departmental appropriations as incurred and no provision is made to fund current or past service obligations of the Government to the Civil Service Superannuation Fund or to the Teachers' Retirement Allowances Fund. The reserves which are presently held in these Funds represent only the employees' obligation towards the total pension liability.

An actuarial valuation and report of the Government's liability to the Civil Service Superannuation Fund was determined as at December 31, 1986. The report also provided a formula to update the liability on an annual basis. In accordance with the formula adopted by the actuary, the Government's actuarial liability to the Civil Service Superannuation Fund has been calculated on a non-indexed basis at approximately $457 million at March 31, 1990 (1989-approximately $406 million). The liability of the Province to the Teachers' Retirement Allowances Fund has not been established by an actuarial valuation. The reserve which is indexed and held in the Teachers' Retirement Allowances Fund, representing the employees' obligation towards the total pension liability, amounted to $675 million as at December 31, 1989 (1988-$597 million). The Province's liability should approximate these amounts.

In addition, the Government is required to pay all of the pension disbursements made to retired Members of the Legislative Assembly (MLA's) in accordance with the Legislative Assembly Act. Members' contributions, as deducted from their renumeration, are treated as revenue of the Government. An actuarial valuation at December 31, 1986 determined the Government's liability to be $19 million. The report did not include a formula to update the liability annually, however, a revised report is expected to be available for disclosure in the 1990-91 Public Accounts.

14. FISCAL STABILIZATION FUND

The Fiscal Stabilization Fund was established effective March 31, 1989 under authority of the Fiscal Stabilization Fund Act. The purpose of the fund is to assist in stabilizing the fiscal position of the Government from year to year and to improve long-term planning. Under authority of the Act, the Minister of Finance, with the approval of the Lieutenant Governor in Council may deposit in the Fund any part of the revenue or other financial assets received in any fiscal year, and may transfer any part of the Fund to revenue of the Consolidated Fund.

If the Fiscal Stabilization Fund was consolidated in the financial statements of the Government, the net result for the Operating Fund would have been a deficit of $117 million (1989-$58 million surplus).

15. LEGISLATIVE AUTHORITY FOR BORROWING AND EXPENDITURE

Order-in-Council 1138/82 authorizes the Minister of Finance to borrow money by the sale of promissory notes or by bank line of credit up to an aggregate amount not exceeding $350 million at any one time.

Limits established by legislation for borrowing funds and for expenditure from appropriations are shown below along with information regarding any non-compliance with these limits that may have occurred during the fiscal year.

A) BORROWING:	Appropriation Acts	Loan Acts
	($ millions)	
Incremental Non-Lapsing Authority Provided in 1989 Acts	$ 800	$ 800
Amount Used During the Fiscal Year Ended March 31, 1990	38	225
Available for Future Years	$ 762	$ 575
Unused Borrowing Authority From Prior Years	-	-
Unused Borrowing Authority at March 31, 1990	$ 762	$ 575

B) **EXPENDITURE:**(Appropriation Acts)

1) **CHANGES FROM ORIGINAL BUDGET ESTIMATE**

The budget estimate shown on the Statement of Revenue and Expenditure consists of the original estimates as contained in the budget address delivered by the Minister of Finance on June 5, 1989.

The 1989-90 expenditure estimate of $4,766 million included an estimated saving of $50 million expected from lapsing expenditure authority in various appropriations. Because the specific appropriations were not identifiable, gross appropriation expenditure authority totalling $4,816 was voted and authorized in the Main Estimates. The amount was increased during the fiscal year as follows:

	($ millions)
Main Estimates (including general statutory appropriations)	$4,816
Supplementary Estimates	69
Increased by Special Warrants	39
Adjustment of estimated amount of statutory appropriations to actual expenditure	(62)
Total authorized expenditure	$4,862

2) **NON-COMPLIANCE WITH APPROPRIATION LIMITS**

i) The following voted appropriations of the Government were placed in a net overexpended position as a result of adjustments made to reflect accounting policies on valuation allowance and Crown corporation deficits:

Housing XXX-4	
Transfer Payment to the Manitoba Housing and Renewal Corporation	$654,082
Northern Affairs XIX-1	
Administration and Finance	26,312
Allowance For Losses and Expenditure Incurred by Crown Corporations and Other Provincial Entities XXXV-1	
Allowance for Losses and Expenditures	$1,222,242

ii) Ten appropriations of the Government had late accounts paid in the 1990-91 fiscal year which were in excess of the balance remaining in the appropriations by $1 million at March 31, 1990. These late accounts paid subsequent to 45 days after year end are excluded from March 31, 1990 liabilities by the existing accounting policy. These late accounts result in non-compliance with appropriation limits established for the respective programs.

C) **EXPENDITURE:**(Loan Acts)

The Loan Act, 1989, provided non-budgetary expenditure authority for the purposes designated in Schedule A and Schedule B of the Act. Schedule A provided $328 million of new expenditure authority while Schedule B indicated $1,200 million of unused expenditure authority from prior Loan Acts. The Act also provided for the lapsing of $430 million of previously voted expenditure authority which is no longer required.

Details of The Loan Act, 1989 expenditure authority is as follows:

	($ millions)
Incremental Authority (Schedule A)	$ 328
Unused Authority from Prior Loan Acts (Schedule B)	1,200
	$1,528
Expenditure Authority used during the fiscal year ended March 31, 1990	329
Unused Loan Act Expenditure Authority at March 31, 1990	$1,199
As at March 31, 1990, unused Loan Act Expenditure Authority was encumbered by	$ 21

In addition to the Unused Expenditure Authority shown above, pursuant to prior Loan Acts, Order-in-Council 515/89 committed the Government to $150 million of loan guarantees in future years under the terms and conditions relating to the sale of Manfor Ltd. to Repap Pulp and Paper Inc.

16. COMPARISON TO BUDGET ESTIMATE

For purposes of providing a meaningful comparison of changes in the financial position with the budget estimate, in addition to the budget data, other internally developed management information has also been included in the budget estimate information.

17. EXPENDITURES RELATED TO CAPITAL

The Government has substantial holdings of physical assets such as buildings, highways and education and health facilities, which will be used to provide services in future periods and may tend to appreciate in value over time. However, these do not represent claims on others and are therefore not reported as assets, but rather as expenditures. Such expenditures are classified as "Expenditures Related to Capital" in the Main Estimates of Expenditure. This classification is defined as follows:

A. expenditures for property of all kinds, both real property and chattels, purchased or self-constructed for use by Government that are deemed to have an economic life in excess of one year;

B. expenditures for projects or activities which entail major renewals, modification or modernization by own labour forces or by contractors on behalf of the Government and which significantly prolong the expected economic life of the asset;

C. the principal portion of a debt repayment when the debt was incurred to acquire a physical asset and the acquisition cost of the physical asset was not previously reflected in the Consolidated Fund as an expenditure;

D. grants or assistance payments to municipalities, school divisions, external agencies, commercial organizations and private individuals which are known to be for the purchase, construction or improvement of physical assets.

18. MANFOR LTD. DIVESTITURE

The Government's investment in Manfor Ltd. was sold to Repap Pulp and Paper Inc. on May 4, 1989, for a consideration of $131.6 million, consisting of $10 million in cash, $31.6 million in Class MA shares and $90 million in Class MB shares in Repap Pulp and Paper Inc. The $10 million cash has been set aside to cover the estimated costs associated with the divestiture, which consist primarily of an unfunded liability by Manfor Ltd. to the Workers Compensation Board and the costs of an environmental clean-up program at the Manfor site.

A development incentive included in the sale agreement gives Repap Pulp and Paper Inc. the right to re-acquire one-half of the Class MB shares, which have a stated value of $45 million, for $1 million. This $44 million development incentive is subject to meeting certain deadlines established in the agreement and, if exercised, will reduce the redemption value of the shares received by the Province accordingly. In view of this, the Repap shares received on divestiture have been recorded in the Province's accounts at $77.6 million.

The recorded value of the Province's investment in Manfor Ltd. at the date of divestiture was $127.1 million, which was fully offset by an equivalent valuation allowance established in the 1987-88 fiscal year. After divestiture took place, the value of the Manfor Ltd. investment was written-down, utilizing the valuation allowance, to coincide with the estimated redemption proceeds from the Repap Pulp and Paper Inc. shares received in exchange for the Manfor Ltd. shares. This left a balance of $77.6 million in the valuation allowance, which amount is equivalent to the expected redemption value of the Repap Pulp and Paper Inc. shares. Although the accounting policies of the Province allow for the recovery of this balance as a reduction of 1989-90 expenditures, it has been determined that recovery will be deferred until share redemption occurs. Redemption of the shares is mainly dependent on the future profitability of Manfor Ltd. and the fulfilment of other conditions, well into the future.

Subsequent to the date of sale, the Class MA shares were exchanged for 316,397 Series D Preferred Shares of Repap Enterprises Inc. and the Class MB shares for 900,000 Series E Preferred Shares of Repap Enterprises Inc. The shares received in exchange have the same rights, privileges, restrictions and conditions as attached to the MA and MB shares.

The Preferred Shares of Repap Enterprises Inc., representing the net proceeds from the sale of Manfor Ltd., were transferred to the Fiscal Stabilization Fund during the fiscal year ended March 31, 1990. The account representing the unrealized recovery from the Province's investment in Manfor Ltd., in the amount of $77.6 million, was also included in the transfer to the Fiscal Stabilization Fund. Recognition of the recovery on this investment will occur as cash is received from the redemption of the Preferred Shares. The revenue resulting from this recovery will be retained in the Fiscal Stabilization Fund and will be available for the purposes of the fund.

19. SUBSEQUENT EVENTS

A. The Government's interest in Manitoba Data Services was sold to STM Systems Corp. in August of 1990.

B. GOVERNMENT OF THE PROVINCE OF MANITOBA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1990

1. TRUST FUND ACCOUNTING POLICIES

A. The Trust Fund financial statements are prepared using the cash basis of accounting.

B. The gross accounting concept is not followed.

C. Bonds and other securities held as Custodial Trusts are shown at face or par value. All other Trust Fund investments, including Sinking Fund investments held for Crown corporations, agencies, boards and commissions, are shown at cost. Where an investment is in a foreign currency, it is restated at the rate of exchange in effect on March 31.

2. TRUST DIVISIONS

The Trust Fund is divided into two primary divisions:

A. ADMINISTERED TRUSTS
Those trusts where the Government has the responsibility for the administration and for investment of the trusts.

B. CUSTODIAL TRUSTS
Those trusts where the Government's responsibility is custodial in nature and there is little or no administrative responsibility. Generally, the responsibility for investment of Custodial Trusts is that of the depositor.

3. ADMINISTERED TRUSTS

Administered Trusts are divided into five categories:

A. SINKING FUNDS
Sinking fund contributions are deposited with the Minister of Finance by Crown corporations, agencies, boards and commissions in respect of their direct debt.

B. FUNDS ON DEPOSIT FOR INVESTMENT
Funds surplus to the immediate cash requirement of Crown corporations, agencies, boards and commissions are deposited for investment with the Minister of Finance.

Although certain of these deposits are covered by specific investments in the Trust Fund, the majority of these funds are invested with the Minister of Finance and interest is paid at market rate in accordance with the terms of the investment.

C. BANKING FACILITY ACCOUNTS
These accounts are operated for those Crown corporations, agencies, boards and commissions who bank with the Minister of Finance.

D. OPERATING TRUSTS
Certain trusts are established where legislation or agreements require receipts and related disbursements to be kept separate from Government revenue and expenditure. These "designated trusts" may, in some cases, be used for programs similar to those operated from appropriated funds but are kept separate because a trust requirement has been established. A separate Statement of Receipts, Disbursements and Transfers is prepared for each of these trusts and is published in the OTHER FUNDS section of the Public Accounts.

E. MISCELLANEOUS TRUSTS
These trust accounts result from the sundry deposit of cash and/or securities with the Government.

NOTE: The School Capital Financing Authority Act was repealed April 1, 1983 at which date all investments and money held by the Authority, as well as debt payable by the Authority, were assumed by the Government. The investments transferred to the Government consisted of serial debentures issued by the school divisions and districts for which the Government is primarily responsible for repayment. Accordingly, an annual appropriation is made in the Consolidated Fund to cover the principal and interest costs of these debentures.

The cash drawn from this appropiation for the required annual principal repayments is transferred to the Province's Sinking Fund where it will be used for repayment of the debt assumed from the Authority. A similar treatment would be accorded any proceeds from the sale of the school debentures.

Under the purchase arrangement, the properties were resold to Manitoba Properties Inc. at the same price. The Province received the following consideration for the above noted sales:

Common shares of Manitoba Properties Leasing Inc	$ 170,493,391
Common shares of Manitoba Properties Management Inc	170,493,391
Promissory Notes of Manitoba Properties Inc	181,764,123

Excess of Liabilities Over Financial Assets Account	575,631,857
Revenue	56,000
	$ 916,644,539

During the fiscal years ended March 31, 1987 and March 31, 1990, land and buildings in the amount of $22,000 and $3,490,811 respectively were repurchased by the Province and the Promissory Notes due July 31, 1994 in the amount of $181,764,123 were reduced by $3,512,811 to reflect the repurchase.

During the fiscal year ended March 31, 1990, 1,068,208 Series A preferred shares of Manitoba Properties Inc. were redeemed at the option of registered owners at a price of $25.00 per share for a total amount of $26,705,200. The Province provided the refinancing for this redemption by purchasing additional promissory notes of Manitoba Properties Inc. due June 30, 1994 in the amount of $26,705,200.

On resale of the assets to Manitoba Properties Inc., the two Crown Corporations received common shares of Manitoba Properties Inc.. The resale agreement stipulated that Manitoba Properties Inc. would record the issue of these shares in its captal account at a value of $20,000 for shares issued to March 31, 1985 and an additional $10,100 for shares issued to March 31, 1986. For the fiscal years ended March 31, 1985 and March 31, 1986 $209,246,896 and $131,709,786 respectively were designated and accounted for as contributed surplus.

The March 31, 1985 balance of $209,246,896 was subsequently transferred to retained earnings. While the $131,709,786 continues to be recorded as contribued surplus, it is designated to be transferred to retained earnings as required. Both amounts are available for the payment of annual dividends to preferred shareholders of Manitoba Properties Inc. Payment of dividends from retained earnings has the effect of reducing the value of Manitoba Properties Inc. shares owned by Manitoba Leasing Inc. and Manitoba Properties Management Inc. and would have a collateral effect on the shares in these two corporations owned by the Province. As a result the Province has allocated a portion of the sale proceeds equal to the contributed surplus to a special valuation account.

This account is used to reflect the diminution in value of the common shares of Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc., as result of dividends paid to the preferred shareholders of Manitoba Properties Inc. As of March 31, 1990 the value shown for the common shares of each of these two Crown Corporations has been reduced by $94,672,578 and the valuation account by $189,345,156 to reflect dividends payments as follows:

Dividends paid by MPI during its fiscal years ended January 31, 1985 to January 31, 1989	$ 153,659,532
Dividends paid by MPI during its fiscal year ended January 31, 1990	35,685,624

1. HOSPITALS AND PERSONAL CARE HOMES		
Hospitals and personal care homes have obtained financing for capital construction by issuing debentures, or arranging for mortgages or long-term bank loans. The Hospital Capital Financing Authority, which was established in 1972, approves the issue of all securities and assists in obtaining an orderly market for the sale of the securities to finance these capital expenditures. Although this indebtedness is not guaranteed by the Government, funds required for the payment of principal and interest related to the approved capital debt incurred for the construction and acquisition of facilities for the provision of insured services are included in the expenditure of the Manitoba Health Services Commission. The main source of Commission funds is from the Consolidated Fund of the Province of Manitoba. The amounts at right include $22,086,624 ($22,265,886 as at March 31, 1989) National Housing Act mortgages which are subsidized by the Canada Mortgage and Housing Corporation. $50,280,000 ($54,679,000 as at March 31, 1989) were held in investment accounts managed by the Minister of Finance.	$ 462,548	$ 429,327
In addition to the approved outstanding debt, lines of credit up to $82,633,000 ($64,373,000 as at March 31, 1989) have been approved to finance capital projects currently in process. On completion of these projects, the borrowings will be converted to long-term debt.		
2. PUBLIC SCHOOLS		
School Divisions have obtained long term financing for capital construction projects by issuing debentures. Although these debentures are not guaranteed by the Government, funds required for payment of the principal and interest related to the capital debt incurred for the construction and acquisition of facilities approved by the Public Schools Finance Board are mainly provided from the Consolidated Fund of the Province of Manitoba. Of the $284,964,323 outstanding at June 30, 1989, $284,657,880 ($271,735,697 as at December 31, 1988) represented debt issued with Public Schools Finance Board approval and for which funds for debt servicing is mainly provided from the Consolidated Fund, and $284,935,000 ($267,302,000 as at December 31, 1988) were held in investment accounts managed by the Minister of Finance.	284,658	271,736

FISCAL STABILIZATION FUND

REPORT OF THE OFFICE OF THE PROVINCIAL AUDITOR

Under the authority of section 8 of The Fiscal Stabilization Fund Act, we have examined the statement of financial position of the Fiscal Stabilization Fund of the Government of the Province of Manitoba as at March 31, 1990 and the statement of revenue and expenditure and fund balance for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

The Preferred Shares of Repap Enterprises Inc., included in the statement of financial position at $77,638,700, have been recorded at their future potential redemption value, as set out in note 3. As set out in note 4, the unrealized recovery from the future redemption of the Preferred Shares of Repap Enterprises Inc. of $77,638,700 recognizes that realization of these shares is dependent on the future profitability of Manfor Ltd., or its successor, and other conditions being fulfilled, well into the future. To the extent that these preferred shares are subject to realization through future redemption, these shares are not an asset of the kind that can be used at March 31, 1990 to fund program expenditure to assist in stabilizing the financial position of the Government and the preferred shares of $77,638,700 cannot be considered an asset available for that purpose.

In our opinion, except for the matter described in the preceding paragraph, these financial statements present fairly the financial position of the Fiscal Stabilization Fund of the Government of the Province of Manitoba as at March 31, 1990 and reflect the transactions processed through the Fiscal Stabilization Fund for the year then ended in accordance with the legislation establishing the Fund and the accounting policies stated in note 2 to the financial statements applied on a basis consistent with that of the preceding year.

FISCAL STABILIZATION FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1990

1. INCORPORATION AND FUNCTION

The Fiscal Stabilization Fund was established at March 31, 1989 under the authority of The Fiscal Stabilization Fund Act, which received Royal Assent on December 13, 1989. The purpose of the Fund is to assist in stabilizing the fiscal position of the Government from year to year and to improve long-term fiscal planning. Under the provisions of the Act, the Government may deposit in the Fund any part of the revenue or other financial assets received in any fiscal year and shall credit to the Fund any earnings from investment of the Fund. All or part of the Fund balance can be transferred to the Consolidated Fund in accordance with the provisions of the Act for the purposes indicated.

2. SIGNIFICANT ACCOUNTING POLICIES

a) The Fund's financial statements have been prepared using the accrual basis of accounting.

b) The valuation of the investment in the preferred shares of Repap Enterprises Inc. is based on the potential redemption value per the Share Purchase Agreement, as set out in Note 3.

c) The unrealized recovery from future redemption of preferred shares of Repap Enterprises Inc. is established as an equal and offsetting amount to the valuation of the preferred shares in Repap Enterprises Inc.

3. SHARE PURCHASE AGREEMENT

On May 4, 1989, the Government of the Province of Manitoba entered into a Share Purchase Agreement with Repap Pulp and Paper Inc. Under terms of the Agreement, the Government disposed of its interest in Manfor Ltd. to Repap Pulp and Paper Inc. for preferred shares in Repap Enterprises Inc. These shares were transferred to and recorded in the Fiscal Stabilization Fund as at March 31, 1990 at $77,638,700. The shares consist of 316,397 Series D Preferred Shares and 900,000 Series E Preferred Shares, each with a redemption price of $100. Repap Pulp and Paper Inc. has the right to re-acquire up to 450,000 of the Series E shares for $2.22 per share as a development incentive. The valuation of $77,638,700 reflects 316,397 Series D shares at $100, 450,000 Series E shares at $100 and 450,000 Series E shares at $2.22. Such realization through the redemption of these shares is dependent upon the occurrence of future events. Accordingly, the worth of these shares is not presently determinable. Consequently, an equal and offsetting entry in the amount of $77,638,700 is recorded as an unrealized recovery from future redemption of preferred shares of Repap Enterprises Inc.

The investment in Manfor Ltd. previously has been carried in the Government's Consolidated Fund at a nominal book value of $1 as the result of a valuation allowance applied against the investment. Recognition of revenue from the Repap Enterprises Inc. shares will be deferred until cash is received from the redemption of these shares. The unrealized recovery from redemption of Repap Enterprises Inc. shares account will be decreased and Fund balance account increased as cash is received from future redemptions. The redemption realization of these shares is dependent on future profitable operations of Manfor Ltd. or its successor after May 1, 1989 and other conditions being fulfilled, the more significant of which are set out in Note 4.

4. REDEMPTION OF SHARES

Under terms of the May 4, 1989 Share Purchase Agreement between the Government of the Province of Manitoba and Repap Pulp and Paper Inc., Repap Pulp and Paper Inc. may redeem the Series D and E Preferred Shares of Repap Enterprises Inc. The redemption is dependent on earnings of Manfor Ltd. or its successor after May 1, 1989. Redemption of the Series D shares may occur over a period of five consecutive years commencing the later of December 31, 1994 or December 31 of the year in which the long-term debt for construction of Phases I and II of the plant redevelopment is reduced to 50% or less of the original amount. The timing of redemption is also related to issuance of environmental permits for Phase I by June 30, 1989. Delays beyond that date correspondingly extend commencement and completion dates of both Phases I and II and, accordingly, the redemption dates. The environmental permits related to Phase I were issued January 26, 1990. Redemption of the Series E shares may commence once all the Series D shares have been redeemed and may occur over a period of ten consecutive years.

Notes to the Financial Statements

For the Year Ended March 31, 1990

1. The Fund carries out the following programs:

   i) It operates the Specific Purpose Funds Account to provide financial services to Community Councils in northern areas of Manitoba governed by the Northern Affairs Act;

   ii) It levies property and business taxes based on real property assessments and remits the tax requirements to School Divisions and The Public Schools Finance Board. Taxes collected for local purposes in the communities are remitted to the Community Councils when collected.

   The Fund accounts for each of these programs separately.

2. The significant accounting policies of the Fund are as follows:

   a) Specific Purpose Funds Account

   The Specific Purpose Funds Account operates on a cash basis of accounting modified as follows:

   i) Revenue includes amounts received after the fiscal year end, if paid from the Government of the Province of Manitoba appropriations for the fiscal year then ended.

   ii) Expenditure includes payments made after the fiscal year end, if funded with revenue for the fiscal year then ended.

   b) Taxation Account

   The Taxation Account operates on the accrual basis of accounting and, in accordance with procedures followed by municipal entities in the Province, recognizes taxation revenue and expenditure on a calendar year basis.

   c) Services Provided by the Government of the Province of Manitoba

   The cost of services provided by the Government of the Province of Manitoba as outlined in Note 6 are not reflected in these financial statements.

3. Cash of $100,000 is retained in the Taxation Account to cover current needs. Cash in excess of $100,000 is transferred to the Government of the Province of Manitoba as a contribution to costs incurred by the Province to provide services in remote areas which do not have a local government to provide these services.

4. During the year the Department of Northern Affairs paid $1,180,435 for forest fire costs and recovered these costs from the Government of the Province of Manitoba's Flood Control and Emergency Expenditures appropriation. Of these costs $355,908 was processed through the Fund and included in the Community Council Funds. The remaining cost of $824,527 was processed directly through a departmental appropriation.

5. Grants in lieu of taxes and grants in lieu of taxes added were derived from the following sources:

	1990	1989
Government of the Province of Manitoba	$ 164,306	$ 159,458
Government of the Province of Manitoba Agencies	304,363	295,690

INTRODUCTION TO THE PUBLIC ACCOUNTS OF MANITOBA

The Public Accounts of the Province of Manitoba are prepared by statutory requirement, in accordance with the Financial Administration Act, which is Chapter F55 of the Continuing Consolidation of the Statutes of Manitoba. The Public Accounts for the fiscal year ended March 31, 1990 consists of three volumes:

VOLUME 1 contains the Financial Statements of the Consolidated Fund of the Province and schedules of supporting information.

VOLUME 2 is a supplementary volume which contains further details of the expenditures by standard expenditure object codes. It also provides details of the salaries and wages paid to employees as well as payments to corporations, firms, individuals, other Governments and Government Agencies.

VOLUME 3 contains the Summary Financial Statements of the Province. The intent of these statements is that they will reflect the consolidation of the financial operations of all organizations integral to the overall operations of Government in performing its executive function. At this time however, only the operations of certain trust accounts and crown entities, as referenced in the Introduction to Volume 3, are consolidated with those of the Operating Fund.

While the resulting consolidations represents the Reporting Entity in all material respects, there remains several operations with a lesser dollar impact which have yet to be consolidated. The Department of Finance is working to include the financial operations of these organizations in future Summary Financial Statements.
